## Following Directions in School

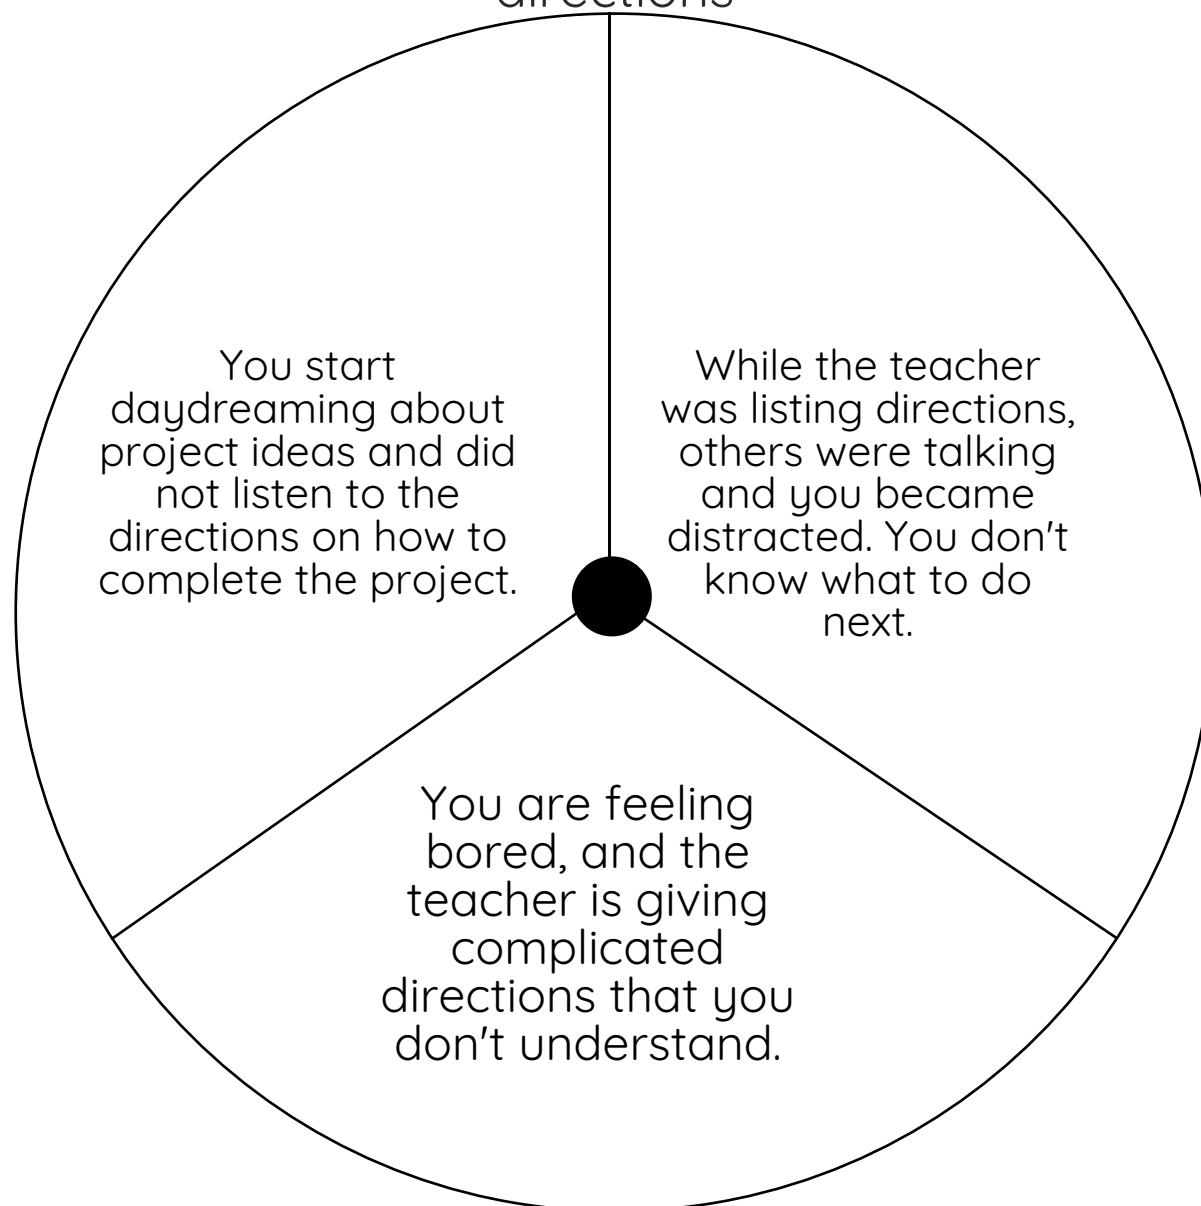

We are given directions throughout the day at school. Following directions is important for our learning. If we don't listen or don't understand, we may not be able to do our work properly.

Use a pencil & paper clip to create a spinner with the circle below.

Each time you land on a situation:

Explain how you would handle each problem scenario in order to find out the

directions

Following directions is very important in school. If we miss a direction, we need to be responsible and decide how to solve the problem so we can do our best work every day.
